MUSIC BUSINESS est. 1984

"As testimonials of my good intentions, I offer these comments from folks I have worked with. I hope, too, I can earn your trust and respect." -Ron

THEN AND NOW

Ron and his musicians cooperative were the digital pioneers at utilizing the world wide web to introduce independent artists to the world... before Spotify, Amazon, CDBaby, Soundcloud, Napster and others. AND he is still here. The guy is a straight shooter and a wonderful supporter of the arts. I am in his debt!!

CLOSING THE GAP

I have known Ron for over 30 years. He consistently finds and supports outstanding new music. He challenges musicians to be the best they can be. His organizations have bridged the gap between fans and music makers and contributed to American musical culture. May his work grow and flourish.

MUSIC BUSINESS est. 1984

"Further testimonials from fellows I have worked with.
I hope, too, I can earn your trust and respect." -Ron

TREASURED FRIENDSHIPS

In the early '80s I had created some music. I even produced a couple vinyls and cassettes of my tunes but without really a workable plan to share it with anyone. Once I discovered Ron's musicians coalition, I then had a venue for music sales. Through further encouragement and business contacts, I received some radio airplay, was featured in a magazine article, and met other musicians which led to a long-distance - **Jeff Hall**

CREATIVE SUPPORT

Ron has made the transition from the analog regime to digital without missing a beat. His musicians coalition supports Indie artists like myself with every tool available! Ron stands behind everything and makes it possible for artists like myself to be creative and get their product into the hands of people that appreciate it. - **Don Mancuso: DDrive, LTB**

RON'S BUSINESS est. 1971

"I began my first business in 1971 in the basement of a musical instrument store. Since, I have operated in several different tech fields and earned friendships with many folks world-wide. I hope, too, I can earn your trust and respect." Ron

IN THE BEGINNING

I first met Ron back in the early 1980s as a member of the Performing Artists Network, the first social media system targeted at the music industry. I can still remember the discussions that led to Ron creating our musicians coalition. Since then we have kept in touch and I've watched as the coalition has come to fruition. Ron is a true innovator as well as being a tireless promoter of artists.

- Brian Heywood - Artist and member of the Royal Society of Musicians of Great Britain

NETWORK LEARN

CMC has been great for more than selling recordings. It was a good place to network with other musicians and a good place to learn new things. Ron is one of the most honest and hardworking persons I know, and has remained a friend since 1988. - **(Sr.) Sally A. Daley, QM**
